

BEAUTIFUL PERTH AWARDS GUIDANCE FOR FRUIT & VEG GARDENING AWARDS

These awards celebrate the work done by residents, businesses, community groups and schools in Perth who are growing edible produce, whether it's fruit, vegetables or both!

Eligible entries

All types of fruit and vegetable growing come into this category, whether it is on an individual allotment, in a garden or a plot, in raised beds or in containers.

How the Awards work

Beautiful Perth Awards are designed to celebrate your achievements, whatever the scale of your entry. We use the Royal Horticultural Society's system of awarding Bronze, Silver, Silver Gilt and Gold levels, so entries in all stages of development can receive an Award, and you can enter whether you are a beginner or an expert!

Judging criteria

Beautiful Perth judges will visit in early August to assess entries using four criteria:

- productivity and horticultural practice
- attractiveness and overall maintenance
- resource management (eg sustainable water use, reuse of recycled/upcycled materials)
- seasonal interest

Other Categories

Entrants for this category may also enter for relevant Residential, Business or Community awards categories, and/or for the following new categories:

Beautiful Perth Environment Award. The judges will look for the best upcycled garden feature and/or for best practice in resource management (eg water use, reuse of 'waste' materials)

Best Solheim Cup Display. To celebrate the Solheim Cup being held in Perthshire in 2019, the winner of this award will receive a trophy donated by the IMG Sports Management Company and £50. There will also be certificates for each entry. The judges will look for relevance to the Solheim Cup (25 points), visual impact (50 points) and horticultural practice (25 points).
